

Keep Operations Running

PATHOGEN DEFENCE SYSTEM

VANGUARD
SYSTEMS

P 1300 567 784 E info@kor.com.au kor.com.au

Developed to protect and improve workers safety/hygiene and decrease environmental contamination.

HELPING TO PROTECT YOUR GREATEST ASSET: YOUR PEOPLE

- > The Vanguard system removes up to 98% of bacteria and viruses like COVID19, hepatitis and septic found on the jet hose, via its patented cleaning collar.
- > Increases operator safety with additionally cleaning close proximity equipment, operator, manhole localised area via spray gun and 15m hose.
- > Easy to install on any truck new or retrofit to existing sewer cleaning jet or combination unit.
- > Economical to operate at only a few dollars per day.
- > By cleaning the hose at the manhole it decreases the risk of contamination and diseases in household back yard, public places and private property.
